Support

Support for this plug-in is ONLY available at <http://www.keal.me.uk> Please post bug reports in the bug tracker on that site.

About

This is a web cam gallery and menu. Admin and users can submit webcams for inclusion and maintain their own entries. The menu will show a specified number of webcams which can be selected at random. Users can rate and comment (both optional) on each webcam. Users can email a link to a friend. Works with e107 Search. You can configure notifications on new submission or reported web cams using the e107 notify.

Installation & Operation

See the wiki entry at e107.org http://wiki.e107.org/?title=Webcam_Gallery

Upgrading

Copy the new version into the plugins folder and from plug-in manager run the upgrade plug-in.

About Version 1.8

Fixed small issue of not being able to administer cams if none exist

About Version 1.7

Fixed some language issues

Moved administration of webcams to the gallery. Added admin class and user own edit.

Tightened up security

Static menu now uses e107 cache settings (not applicable to the random option).

Moved all language defines in to one language file.

Minor bug fixes

About Version 1.6

Fixes bug where user changes their settings and it updates all webcams to their name.

About Version 1.5

Fixed a temperamental refresh issue. Adds http:// to URLs that are missing them in the link to site info.

About Version 1.4

Hopefully fixed issue of php access violation

About version 1.3

Couple of small fixes

About version 1.2

Added Spanish Translation from Frank and Norwegian and German from Fivestar and Dandy.

Fixed a rendering issue because of a missing </td></tr>

Fixed a hardcoded text bug

About Version 1.1

Initial Version

Just for Info

I use PDFCreator from <http://sourceforge.net/projects/pdfcreator/> as the PDF creator, a great free and comprehensive utility.

For editing I use PHP Edit from <http://www.waterproof.fr/>
